Spelling Shed

Getting the Most Out of
Spelling Shed

Use Spelling Shed's Scheme
Fully Planned, Fully Resourced

Spelling Shed lessons are based on up-to-date research and use proven approaches to teach spelling. Every lesson includes a clear lesson plan, editable lesson presentation, worksheets, a homework sheet and a homework answer sheet.

Set Assignments
Target Learning

Spelling Shed lessons include word lists, which are an example of the spelling pattern. Easily assign word lists to your whole class, groups of pupils or individuals.

Play Spelling Shed Games
Have Fun and Improve Spelling

Children love practising spelling using Spelling Shed's fun and engaging games. Play to earn Honeypots and rewards. Data from the games played feeds directly into a handy data report.

Create a Hive Game
Create a Buzz in the Classroom

Pupils can play together in real time. Hive games are a live, multiplayer version of the 'Spelling Bee' game. Each time a Hive is created, a code will be generated that needs to be shared to play. Pupils play the game together in real time. Hive games can also be used as a live spelling assessment.

Create a League or Challenge
Climb the League, Conquer the World

Create a custom league to enable pupils to compete against each other. Keep track of where your class or school is ranking in our leagues, including our World League. Create your own custom leagues for individuals or groups to compete against one another. Teachers and pupils can create challenges so classmates can play games with eachother.

Use our Grammar and Punctuation Curriculum
Your Grammar Curriculum Covered

Covering all of the English National Curriculum expectations for grammar and punctuation, our grammar curriculum includes teaching slides and self-marking digital quizzes.

Play Grammar Arcade
Improve Grammar Skills

Grammar Arcade is the game-changing platform where children can improve their grammar skills while having fun. Specific curriculum objectives can be targeted or children can play their own way.

Identify and Fill Gaps with Mastery Zone
Fill Gaps. Personalise Learning. Master Spelling.

Mastery Zone is the AI-driven tool that runs a diagnostic to identify gaps and ensure learning is personalised, focused on words and spelling patterns they need in order to progress.

Assess Using End of Term Assessments
Assessment Made Easy

Easily monitor progress, assess skills and identify areas to improve with baseline assessments and end of term assessments.

Data and Assessment Tools
Easily Monitor Progress

Access your data reports. Spelling Shed tracks student game plays along with their responses. Teachers can monitor weekly activity in order to advance or remediate as needed.
